# ABOUT

## ANNUAL GENERAL MEETING

The Annual General Meeting (AGM) will take place on October 14, 2026 at the SARABANDE Chicago. The AGM is a yearly gathering that provides an overview of the organization's progress, initiatives, and direction. It offers an opportunity to share key updates on industry trends, technical developments, and membership growth. For this event, the AGM will be a non-confidential session open to both members and non-members, offering valuable insight into the Bureau's accomplishments and the current state of the cedar roofing and siding industry.

## WELCOME RECEPTION

Following the AGM, join us for a casino-themed welcome reception designed to kick off the event in style. Guests will enjoy cocktails and appetizers while taking part in classic casino games such as roulette, craps, poker, and blackjack. Attendees will have the chance to win raffle prizes throughout the evening, all while connecting with industry peers in a relaxed and engaging setting. This reception offers the perfect opportunity to network and build relationships ahead of the trade show.

## TRADE SHOW

The Cedar Shake & Shingle Bureau Trade Show is a full-day industry event taking place on October 15, 2026 at SARABANDE Chicago, bringing together professionals from across the cedar roofing and siding sector. Designed as a hub for connection and collaboration, the trade show offers valuable opportunities for networking with manufacturers, distributors, contractors, and industry leaders.

Through a series of educational AIA seminars and guest speaker sessions, attendees will gain insights into the latest industry trends, technical advancements, best practices, and market challenges. The trade show plays a vital role in fostering relationships, sharing knowledge, and strengthening the industry as a whole, while also providing a platform to showcase products, innovations, and services that support the continued growth and success of the cedar shake and shingle market.
